

# Description for admission types

## Description for Vök Baths

Experience the age-old Icelandic tradition of bathing in a natural geothermal pool. Vök Baths is located on the bank of Urriðavatn lake, only a few minutes from the town of Egilsstaðir. At Vök Baths you will find, floating geothermal pools with infinity view, two on shore hot pools, a sauna, cold water spray tunnel, tea bar, an in-water pool bar, and the on-site restaurant, Vök Bistro.

The geothermal water that flows into the baths is so clean that it is the only certified drinkable hot spring water in Iceland. Our café-restaurant, Vök Bistro, offers a great menu mainly based on organic ingredients from local producers.

For additional enquiries, email us at [hello@vok-baths.is](mailto:hello@vok-baths.is)
